## PORCELAIN STONEWARE

Marble, a shining stone, has been a decorative element of refined luxury since ancient times. Over time it has never lost its charm and now tells the tradition in an innovative ceramic surface. The sharpness of its colours and the flamboyant branching of its veins transform every setting where it is used into a work of art. The purely artistic connotation has given way to the commercial version to offer you a marble effect porcelain stoneware in a wide range of colours, in sizes 60x60 and 60x120, to make every corner of your home a unique and luxurious space.
